

AMPHIBEX-TROUS

Ice-crushing beast of a machine arrives to take on the monstrous Nechako ice jam

The Amphibex arrived in Prince George last Saturday to take on the ice jam at the confluence of the Nechako and Fraser Rivers. Pictured here: Official watch as a truck pulls away from the Amphibex and the multi-use excavator stands on its own, top. The machine makes its way to the water, left, and onlookers get pictures of the ice-crushing monster, bottom left. The Amphibex then got to work on the ice jam itself, bottom right.
